WORK EXPERIENCE

PROTIVITI

Chicago, IL

Business Performance Improvement Consultant

Sept. 2025 to Present

- Embedded in a large technology client to accelerate internal artificial intelligence (AI) development and adoption.
 - Build and deploy AI-powered tools and agent-based workflows using Claude and Claude Code.
 - Collaborate cross-functionally with business stakeholders, engineers, and leadership to gather requirements, map end-to-end workflows, and iteratively develop production-ready AI solutions aligned with business objectives.
- Helped lead AI change management initiatives and deliver nationwide training programs and presentations on behalf of Protiviti regarding the adoption and integration of AI tools for Microsoft Copilot and other AI platforms.
- AI automation analysis for an oil & gas client to improve efficiency, reduce manual work and enhance accuracy.
- ERP implementation for a consumer company; document business requirements and user acceptance testing materials.

PRIVATE HEALTH MANAGEMENT

San Francisco, CA

AI Consultant

June 2025 - Sept. 2025

- Developed and implemented an Agentic AI analytics tool to evaluate patient-clinician interactions for a high-acuity patient guidance company.
 - Led “Communications Coach” AI assistant project from concept to deployment, serving as both project manager and engineer; leveraged ChatGPT, Claude, Synthesia, Exec, and other platforms.
 - Designed, built, and trained custom AI models to analyze call transcripts, assess patient communication traits, and evaluate team member engagement styles, enabling proactive management and continuity of care.

PROTIVITI

Chicago, IL
